D.O.No. 01/COVID-19/EG-4/2020  
16<sup>th</sup> April, 2020

Dear Chief Secretary,

As you are aware, Government of India has constituted eleven Empowered Groups to formulate plans and provide effective solutions to address the challenges of COVID 19 outbreak in the country. Of these, Empowered Group 4 has been mandated with the identification of human resources for various COVID 19 related activities along with necessary capacity building for them.

In this connection, we would like to inform you that a Dashboard- a master data base of Healthcare Professionals and Volunteers- has been made operational (<https://covidwarriors.gov.in>) which provides State and District wise availability of Human Resources from various groups along with the contact details of the nodal officers. Data regarding a large pool of doctors including AYUSH doctors, nurses, other healthcare professionals and volunteer workforce from NSS, NYK, Ex-Servicemen, NCC, PMKVY etc. have already been shared on the dashboard and more information will be progressively made available on the same. This dashboard can be used by State Governments and District Administrations/Municipal Bodies to prepare their Crisis Management/Contingency Plans based on the available manpower, in coordination with the nodal officers for each group. This master data base can also be used to utilise the services of volunteers for various activities including enforcement of social distancing at banks, ration shops, mandi, and providing help to the elderly, divyang and orphanages. This will also help the State/UTs to mobilise human resources from one location to another for their utilisation. The State and District level login credentials for accessing the dashboard are being separately shared.

In addition, we would also like to inform that Government of India has launched a special digital platform – Integrated Government Online Training (iGOT) portal- (<https://igot.gov.in>) for training and capacity building of doctors, nurses, paramedics, hygiene workers, technicians, AYUSH doctors and staff, other frontline workers and volunteers. This portal provides Anytime-Onsite delivery of training material/module through any device (mobile phone/laptop/desktop). Already 44 modules, which are part of 12 courses have been on-boarded with 105 videos and 29 documents. Some of these courses are Basics of COVID, Infection Prevention and Control, use of PPE, Quarantine and Isolation, Management of COVID 19 cases (SARI, ADRS and Septic Shock), Laboratory Sample Collection and Testing, ICU Care and Ventilation Management. More such modules/training content are being uploaded every day. The State Governments and District Administrations/Municipal Bodies are requested to give publicity about the platform and to ensure training of the identified resources as per the job requirement through the portal on an urgent basis.

Yours sincerely,

  
( Dr. Arun Kumar Panda )  
Secretary, MSME and Chairman,  
Empowered Group 4

  
( Dr. C. Chandramouli )  
Secretary, DoPT

To,

Chief Secretaries of All States/UTs
